

## Philosophy

Pinedale Preschool provides a safe, nurturing and stimulating environment for ALL children; including children of different cultures, and those who may be at different social or developmental levels. We allow children to express themselves through language, creativity, and physical activity, by providing an environment that is challenging and fun. Our program offers various schedules to meet the needs of our families.

## Mission Statement

The mission of Pinedale Preschool is to nurture the love of learning through excellence in early childhood education.

# Pinedale Preschool

Supporting children's social,  
emotional and physical growth.

# Our Teachers

Our teachers are dedicated and energetic. They set the stage for lifelong learning and encourage the development of positive social skills which children will master as they grow. Our teachers participate in on-going professional development, to stay current with educational trends and to adapt to the changing needs of modern children and families.

*A hundred years from now it will not matter what my bank account says, the sort of house I lived in, or the kind of car I drove...but the world will be different because I was important in the life of a child.*

## Daily Experiences

**Circle Time:** Teacher and child directed, lively discussions about weather, calendar, social skill development and other topics.

**Self-Help Routines:** Helping children foster self-help skills to gain confidence in their ability to try new things and build self-esteem and pride in their independence.

**Active Play:** Using small and large gross motor skills to learn, grow and build healthy lifestyles.

**Centers:** Engaging active minds in intentional, hands-on, child centered learning, through math, literacy, dramatic play, the arts, social emotional, language, physical, cognitive, science and technology and social studies.

**Enrichment:** Exposing children to various arts, languages and physical activities.

**Family Engagement:** Working together to support and improve the learning, development and health of children.
